planned home theater room will give you improvements of sound, and visuals that will be 100% more noticeable difference.

Home Theater Basics - AV Receiver Setup

For home theater use, Standard or Normal is the best compromise for both TV program and movie viewing. The Vivid preset exaggerates color saturation and contrast too harshly. Cinema is often too dim and warm, especially in a room that may have some ambient light — this setting is best used for viewing movie content in a very dark room.

component system you can fit and afford. While the ideal may be the dedicated home theater room, this is not at all necessary when putting together a home theater system you'll really enjoy. Even the least-expensive sound bar or HTIB system will sound far better than TV speakers do.

Home Theater Setup - The Family Handyman

A dedicated home theater room is a room solely dedicated to watching videos on a big screen. This means that little else happens in that home theater except for screening-related activities. And today, screening means far more than it ever did, with streaming services like Amazon Prime, Netflix, and Hulu, BluRay movies, video gaming, and conventional cable
