viewing experience by choosing the best TV type, size , picture quality, resolution and other categories that suit your need.

How to Set Up Your Home Theater Receiver

Usually, using a 16-gauge wire is recommended for most home theater applications. However, if the wiring network for your home theater requires more than 50 feet of wire or if you want to set up in-wall or ceiling speakers, you may need to use a thicker wire (preferably 14 or 12-gauge) because long cable runs can cause considerable power losses.
