Homeopathic Medicines In Pregnancy: Safety And Effectiveness

Homeopaths generally view the pregnancy and birth process as a period of time needing little intervention, using remedies only if they are required. Homeopathy can be extremely effective, both as an adjunct to other therapies and as an alternative when other therapies seem inappropriate, especially when women want to avoid the complexities of drugs while carrying their babies.

Homeopathic medicines have been used for centuries to assist in childbearing and pregnancy. They are considered an alternative to allopathic medicines due to the suspected teratogenic effects of the latter. Although homeopathy could be an option for some problems that you might have in pregnancy, they may not completely replace allopathy.
