The Honda HS520 is a practical single-stage snowblower that is semi-propelled by a rubber auger and clears snow over a 20-inch width. There are two variants to this model; the HS520A and the HS520AS. The only difference between the two is that the HS520AS has both a manual and electric start. Everything else on both machines is the same.

Honda hs35-snowblower-parts-manual

Snow blowers are "two stage" machines; they use an auger to scoop up the snow and a separate impeller to blow it away. Honda's model HS35 is a single-stage machine, and therefore is properly called a snow thrower, rather than a snow blower. Its release in 1980 entirely changed the home-use snow-moving landscape.
