I bought this because we purchased a house that had a Honeywell MM2 Trol-A-Temp master/slave thermostat controller. We already owned two Nest thermostats that ridiculously does not work with this common setup.

(Come on Nest, your thermostats should be able to talk with each other and co-ordinate.)

Honeywell's range of reflected beam smoke detectors provide superior fire detection performance over traditional detection systems, particularly in spacious areas. With only one device to install and align, these single-ended optical beam solutions help save both time and money for open-area and high-ceiling applications.
