How Designers Think - 2nd Edition

Designers have to be detached from concepts and bit and pieces until they work in the proper context. Designers have to be willing to completely trash the work they've done on a project and start over. It happens more frequently than you might think. And it's not because the design is bad or the concept is wrong.

Cross, The Open University; author of Design Thinking: Understanding How Designers Think and Work

Design Thinking Is Not Thinking Like A Designer, It's ...

All this is to say that it helps to understand the different types of thinking involved in the design process. Not all design challenges will require the same types of thinking. Thinking like a designer simply means being flexible and adaptable enough to apply different types of intelligence as required.
