Normally, my introduction to Radionics is a multi-step approach that takes about 5 hours. This course was written to be effective in a 2-hour, instructor-

How To Build Radionics Machine

Selecting a Radionics Machine. In the case of the six dial machine there should be three dials for the witness circuit and three dials for the trend circuit. When looking at a nine dial machine, there should be three dials for the witness and six dials for the trend circuit. I find three dials tends to be more than enough for a witness circuit.

Creating a radionics machine | Power generator, Projects

The settings of the radionics device, then, compare to ducts in a heating system. On the typical top secret radionics device, therefore, one link connects with the trend while the other link connects with the target. Both links being in the same place (the device), a connection builds between trend and target.
