The Need to Reinvent Your Operating Models in a Post COVID World. The degree with which you need to re-think your models depends on how much COVID-19 will materially affect your particular market segment. One way to think about this is to segment business operations by degree of exposure, from both a customer as well as an employee perspective.

Business Management Consulting & Implementation Consultants | Carpedia implement new technologies supporting a wholesale CBDC variant. In part because cash is rapidly disappearing in their jurisdiction, some central banks are analysing a CBDC that could be made widely available to the general public and serve as an alternative safe, robust and convenient payment instrument.
