About – International Automotive Task Force  
IATF 16949:2016 is the international technical specification and quality management standard for the automotive industry based on ISO 9001:2015. It was created to be used in conjunction with ISO 9001:2015, containing all of ISO 9001:2015 requirements with additional supplemental requirements specific to the automotive industry rather than being a stand-alone QMS.

Compare IATF 16949:2016 to ISO 9001:2015  
A key part of implementing a Quality Management System (QMS) based on IATF 16949 is developing the documentation and a system for record control. You need to make sure your organization creates the most suitable documentation, as it will

define the way your QMS is maintained and improved – as well as specifying how your documents and records must be created, published, withdrawn, and used.
