RigPix Database - Icom - IC-271A

No that is not it, tried that already, Icom is telling me to change the two trimmers on HPL along with a 100uf 16v capacitor, and a new alignment, and this has not had a recap done to it, So, the recap will be done along with the trimmers, and they should arrive this week. This may turn out to be a long drawn out job, 100 plus caps to change.
