GCSE Tutorial - Set Notation and Venn Diagrams - Shading, Intersections (higher and foundation)

All sets are therefore subsets of the universal set. Venn Diagrams. Venn diagrams are used to represent sets. Here, the set $A\{1, 2, 4, 8\}$ is shown using a circle. In Venn diagrams, sets are usually represented using circles. The universal set is the rectangle. The set A is a subset of the universal set and so it is within the rectangle.

Math: Sets (solutions, examples, videos)

1.06 Sets Definition of a set A set is a collection of objects, numbers, ideas, etc. The different objects, numbers, ideas and so on in the set are called the elements or members of the set. 1.04 Worked example ... 978-1-107-61195-5 - Cambridge IGCSE Mathematics Martin Law Excerpt

IGCSE 9-1 Exam Question Practice (Sets + Set Notation) by ...
These questions are reflective of the examinable topics in the IGCSE
syllabus. The questions are varied and covers the various topics.
These questions are typical of those we use to teach our students with
the aim of getting "A" or "A*" They are invaluable to you students and
is an important tool to get you through the exams.

Venn diagrams – WJEC - Revision 1 - GCSE Maths - BBC Bitesize
In mathematics, a set is a collection of things. Sets are often
denoted using the curly brackets {}, for example the set of the first
5 odd numbers is $\{1, 3, 5, 7, 9\}$. There are two definitions that you
should know up front. If we have two sets, A and B, then. $A \cup B$ is
the union of A and B.

goes through set notation and includes a matching activity where students have to try and match the notation to the shaded diagram. It then goes into finding probabilities ...

Set Notation Video – Corbettmaths

Sets are the fundamental property of mathematics. Now as a word of warning, sets, by themselves, seem pretty pointless. But it's only when we apply sets in different situations do they become the powerful building block of mathematics that they are. Math can get amazingly complicated quite fast.
