EndAccept. The EndAccept returns a socket object which represents the incoming connection.

Introduction to Socket Programming

Socket Programming is used for

Access PDF

Introduction To

Sockets

Programming In C

Using Tcp Ip

communication between machines using a Transfer Control Protocol (TCP). It can be connectionless or connection-oriented.

ServerSocket and Socket classes are used for connection-oriented socket programming.

Acces PDF

Introduction To

Sockets

Programming In C

Using Tcp Ip

After creating a connection, the server develops a socket object on its end of the connection.
