A blog (a truncation of "weblog") is a discussion or informational website published on the World Wide Web consisting of discrete, often informal diary-style text entries (posts). Posts are typically displayed in reverse chronological order, so that the most recent post appears first, at the top of the web page. Until 2009, blogs were usually the work of a single individual, [citation needed ...

Background. In many patriarchal cultures, the sexual history of girls and women is used as a significant determinant of their societal, community, family, and individual status [1, 2]. Frequently, conclusions about sexual history are made based on assumptions about the hymen, a small membranous tissue with no known biological function [3, 4], which typically occupies a portion of the external ...

The FDA approved dobutamine for short-term use in patients with decreased contractility due to heart failure or cardiac surgical procedures leading to cardiac decompensation. The agent has not been shown to give positive outcomes in the hospitalized or outpatient setting for heart failure patients despite hemodynamically improving the patient's condition.
