Re: What's the difference between a (6466) and (6076) engine? in reply to 4020guru, 02-06-2013 16:16:44 The information that I am citing comes straight from the 60 series tractor brochure. The 6076 engine had a 33 percent torque rise, a higher top ring placement on the pistons, dome shaped combustion chamber in the cylinder head, 7 hole injection nozzles, whereas I think the 466 had 6 holes in ...

Jd 6466 Engine - 1x1px.me

The technical merits of these engines derive from the spirit of innovation and close attendance of the manufacturing details, which define the attitudes and practice at John Deere engineering plants. The combined advantages of the state-of-the-art technology and a highly trained workforce have contributed greatly to the uplifting of the quality of John Deere engines.
