My 2007 Commander 4.7 V8 (22,000 miles) has started making a tapping or ticking sound from the engine. It mostly does it cold, and goes away within a mile or so of driving. I took it to the dealer 2 days before the warranty expired. They tore the engine apart and replaced the timing chain and tensioners.

Plug the OBD II code reader into the DLC and then turn the ignition key to the key-on/engine-off position. This position is two forward clicks in the ignition that will power the Commander's electrical components without starting the engine. This will also provide portable power to the OBD II code reader.
