I have a 1986 650cc X2 and a 1992 750cc SS. I am going to put the 750 in the X2. My first issue is exhaust. People say they use the 650 manifold on the 750 motor. My 92 750 manifold has an outlet port that is .210" (almost 1/4") larger than the 650 manifold. I see this as a pretty significant restriction. people say port matching makes hp increase. well this is a restriction of almost 1/4" so ...
