IG6000 IG6000h Generator Service Manual

While it is still running during those 20 seconds, I would check for your local voltage at it's output. If it is well above or below it's rated voltage, it's frequency will be out of range also, again, assuming that it's NOT an inverter generator. If it is an inverter type, you'll have to take it to a service center for adjustment.
