OpenLibrary is a not for profit and an open source website that allows to get access to obsolete books from the internet archive and even get information on nearly any book that has been written. It is sort of a Wikipedia that will at least provide you with references related to the book you are looking for like, where you can get the book online or offline, even if it doesn't store itself. Therefore, if you know a book that's not listed you can simply add the information on the site.

The bizhub C352, C352P and C300 are based on Konica Minolta's bizhub OP open platform. The three major components of bizhub OP are the bizhub Architecture, the Emperon Print System and bizhub Open API. The bizhub Architecture removes the need for separate functional boards through the utilization of common system software.
