I also picked up one of these machines -- it is
built better than any of the other krups
machines I've seen. The pump is a vibratory
pump, and can be replaced with a current Ulka
vibratory pump without too much trouble,
putting this machine back into life.

Krups Espresso Plus 966 - Solve device problem
The regular type of help documentation is really
a hard copy manual that's printed, nicely
bound, and functional. It operates as a

reference manual - skim the TOC or index, get the page, and stick to the directions detail by detail. The challenge using these sorts of documents is the fact that user manuals can often become jumbled and hard to understand.
