Labor and Monopoly Capital - Wikipedia

Harry Braverman's landmark 1974 study, "Labor and Monopoly Capital: The Degradation of Labor" is an update of Marx's "Capital." Many of the critics of Marx said that his findings about the frustrations of wage labor applied to factory workers. Modern technology would eventually eliminate the tedium and alienation associated with assembly-line work.

Labor and capital are the opposite poles of capitalist society. This polarity begins in each enterprise and is realized on a national and even international scale as a giant duality of classes which dominates the social structure. And yet this polarity is incorporated in a necessary identity between the two.
