"Language, Proof and Logic": Chapter 7, Sections 7.1-7.4 Overview
arbitrary about logic, then the same must hold of all rational inquiry. Thus laws of logic it becomes crucial to understand just what the laws of logic are, and even more important, why they are laws of logic. These are the questions that one takes up when one studies logic itself. To study logic is to use the methods of

"Language, Proof and Logic": Chapter 2, Sections 2.1-2.5
This is a self paced version of the Language, Proof, and Logic course that was offered in Fall, 2014. This version uses all of the same materials and exercises, but there is no set schedule and you are welcome to work through the material at your own pace. Materials fee. You may access the course lectures for free.
