Uretra - Wikipedia

Postural headaches following interventions that disrupt meningeal integrity are most commonly labeled postdural puncture headaches (PDPHs). This terminology has been officially adopted in the International Classification of Headache Disorders and is used in this chapter. However, use of the word postdural has been criticized as confusing and probably inaccurate, resulting in the proposal of an ...

Recruitment Maneuvers and PEEP Titration | Respiratory Care

Physiological effects have been observed in a human subject in response to stimulation of the skin with weak electromagnetic fields that are pulsed with certain frequencies near $\frac{1}{2}$ Hz or 2.4 Hz, such as to excite a sensory resonance. Many computer monitors and TV tubes, when displaying pulsed images, emit pulsed electromagnetic fields of sufficient
