Upgrading from 6.6 or earlieredit. To upgrade directly to Elasticsearch 7.15.2 from versions 6.0-6.6, you must manually reindex any 5.x indices you need to carry forward, and perform a full cluster restart.This includes any internal indices created in 5.x, such as the .kibana and .security* indices.. Make sure all 5.x indices have been deleted before upgrading to 7.15.2.
