Get Free Led Street Lighting Us Department Of Energy

For the last several decades, most street lighting in the United States has used high-pressure sodium (HPS) technology, which emits orange-yellowish light. HPS street lighting is being replaced by street lighting technologies that emit “white” light – primarily LED, due to its higher efficiency

Get Free Led Street Lighting Us Department Of Energy

and longer life. All white-light technologies – including LED – emit more short-wavelength light than HPS.

Public Lighting Authority

Once its brightness decreases by 30 percent, an LED street light is
