Engines - Leyland 0.680 - trucknetuk.com
Leyland Motors has a long history dating from 1896, when the Sumner and Spurrier families founded the Lancashire Steam Motor Company in the town of Leyland in North West England. Their first products included steam powered lawn mowers. The company's first vehicle was a 1.5-ton-capacity steam powered van. This was followed by a number of undertype steam wagons using a vertical fire-tube boiler.

Leyland 680 Engine - railcar
The steering pump was power driven, which replaced the early belt driven system, while the only available engine was the new Leyland 0.680.

Engines - Leyland 0.680 - The TruckNet UK Drivers RoundTable
At this time,Leyland's biggest truck engine was the 11.6-litre `680` unit which could develop 220bhp but not without issues of falling cylinder head gaskets. Leyland advertised a position of engineering director with a brief to design and develop a new range of engines to meet and beat the competition.

Leyland 600 and 680 - Historic Commercial Vehicle Club of ...
The 0.680S engine (sometimes referred to as the P.680, P for Power-Plus) was usually set for 200 hp at 2200 rev/min. The transition to the Power-Plus engines took several years. The Power-Plus designation was not used for the buses, other than the PSR1 Lion, and power and torque settings varied quite a bit.
