engine, which drives two independent pumps as standard.

Technical Description A 900 ZW - passion-liebherr.net

The new A 922 Rail Litronic can be operated as a dual purpose machine either on the road or on railway tracks. The rail travel drive is mounted on either side of the undercarriage. When entering the rails, the rail travel drive lifts the tyres to rail height, whereby the inside wheels of the dual tyres ensure travel of the excavator on the tracks.

Liebherr A900zw Litronic Rail Roder

The attachment will accept rail road specific tools and equipment.

Read Online Liebherr A900zw Litronic Rail Roader Hydraulic Excavator Operation Maintenance Manual From Serial Number 8855

Undercarriage The rail guide system front and aft consists of the guide wheel axle with wheels, a frame and two hydraulic cylinders. These deliver the required and automatically regulated down pressure to allow for the necessary friction between tires and rails.

A 922 Rail Litronic - Liebherr

The A 924 Rail Litronic is a dual-purpose machine that can be used on the road or on railway tracks. The rail-going gear is mounted on both sides of the undercarriage. When the machine is put on rail tracks, the rail guide is lowered one axle at a time until the internal wheels of the twin tyres make contact with the rail wheel and provide the friction connection for the travel drive.
