***Teaching the Scientific Method | Ask A Biologist
BIOS 10130. Principles of Biology. 100 Units. What is life? How does it work and evolve? This course uses lectures, student-centered interactive learning in the lab, assigned readings from both the popular press and primary scientific literature, and directed writing exercises to explore the nature and functions of living organisms, their interactions with each other, and their environment.***

***Biological Sciences < University of Chicago Catalog
Tutoring Can Produce Learning Gains Two Standard Deviations above Traditional Classroom Learning Gains. Perhaps better known for his work on the development of Bloom's taxonomy, Benjamin Bloom also contributed significantly to insights on the effectiveness of tutoring (Bloom et al., 1956; Bloom, 1984). In 1984, Bloom published an influential report about a phenomenon he termed the "2 sigma ...***

How to Introduce Students to the Scientific Method Students, and sometimes even teachers, often think scientists only use the scientific method to answer science-related questions. In fact, you can apply the scientific method to almost any problem. The key is to use the elements (steps) to reduce bias and help come to a solution to the problem. ***One Size Does Not Fit All***[caption

Life Sciences Control Test Question

I've also added the phrase "(find time for)," which psychology researcher Sonja Lyubomirsky uses for clarification in question 18. Note: Michael Argyle died in 2002. If you would like to contact Peter Hills, you can email him at p_r_hills "AT" hotmail "DOT" com (seems to be outdated) or contact him by telephone/fax in the UK: Tel ...
