### Installation and Setup - portal.liferay.dev

Just note that when the user ID was created, a password was automatically generated and, if Liferay was correctly installed (see chapter 14), an email message with the password in it was sent to the user. This, of course, requires that Liferay can properly communicate with your SMTP mail server. Figure 15.3: Liferay's User Account Editor

### Liferay Developer's Guide

However, you can customize the modifiable portions of personal sites through Liferay's permissions system by removing permissions from roles. To disallow all portal users from modifying something, remove the permission from the User role. Historically (prior to Liferay 5.1), only power users received personal sites.
