Lighting Guide 7 Lg7

This new edition of LG7 has kept the design flexibility of the old one, but has built on it to emphasise the need to minimise energy use while maintaining a good visual environment for occupants. It keeps a balanced approach to design options, covering, where ceiling heights allow, direct/indirect lighting or pure uplighting and, for spaces with lower ceilings, recessed downlighting.

Details of LG7 - LG7 information

considered as best practice. Lighting Guide (LG) 7 is possibly the one most commonly referred to, but it is often misunderstood by being used to specify luminaires rather than the total environment of the space. LG7 was written to supersede the original LG3 which had very restrictive cut off criteria for the luminance of luminaires.
