The eReader Cafe has listings every day for free Kindle books and a few bargain books. Daily email subscriptions and social media profiles are also available if you don't want to check their site every day.

Limiting Reagents - Ms. Mogck's Classroom
Correctly phrased, the answer is 57 formula units. Comment: when I was in the classroom, teaching the technique for determining limiting reagent, I would warn against using the results of the division, in this case the 19 for the NaOH, in the next step of the calculation. The 19 is good only for determining the limiting reagent.
