Assignment #5

Inner Product

The inner product of two vectors u and v can be computed (using the definition of the inner product) with the command $u' * v$ (or $v' * u$).

Access Free Linear Algebra For Engineers

The length of u is $\text{norm}(u)$ (or $\sqrt{u' * u}$). In particular, given a vector u , you can normalize it with the command $u \dots$

Linear Algebra
for Scientists
and Engineers

Description. The
course provides
an introduction
to linear
algebra and
matrix theory.

Access Free Linear Algebra For Engineers

It is intended primarily for engineering students. This course cannot be used toward the upper level math requirements for MATH/STAT majors.
