The Llama s firing mechanism differs considerably in detail from the 1911. The slide is the main area of interest. For illustration purposes, I chose a rather common Commander-length Llama in 9mm Luger. This pistol is a true compact, however, rather than a short slide on a full-length frame. The extractor is of the external type. There is no extractor tunnel in the slide and no firing-pin stop.

Llama Max-1 1911 Unbox and Field Strip

Llama Firearms, officially known as Llama-Gabilondo y Cia SA, was a Spanish arms company founded in 1904 under the name Gabilondo and Urresti. Its headquarters were in Eibar in the Basque Country, Spain, but they also had workshops during different times in Elgoibar and Vitoria. The company manufactured moderate-priced revolvers and self-chambering pistols in a wide variety of models.
