I read this book after reading Stephanie Haddad's first novel "Previously Engaged." The characters in "Love Unlisted" were likeable and this was a quick read. However, there were some questions never answered, some things were a bit far fetched, and the ending was a bit abrupt. Overall I enjoyed the book, but not as much as her first book.

Love Unlisted had what seemed to be a cute premise. A hyper-organized event planner falls for a laid back musician who helps her stop worrying and learn to live without lists. Instead, a young woman suffering from severe mental health issues stemming from her father's untimely death is bullied and berated by everyone in her life for her coping method.

Love Unlisted: Stephanie Haddad, Emily S Rubenstein ...

This is the second book by Stephanie Haddad I've read. The first was Love Unlisted, and I preferred that one. I'm not sure if this was written after that one, or if that's just the order I read it in, but this one did not live up to the other. I remember really liking Ava and Jay in Love Unlisted, but I was disappointed with their story.
