manual and must be studied by the operator. Always follow the safety rules and keep the manual available for future use. ... Dynapac machines fea-ture a handle design that absorbs a large part of the machine vibrations. The vibrations are not eliminated entirely, but it is possible to use the ...

Compaction • Dynapac - Fayat Group  
The LP6500 is a duplex roller, ideal for compacting soil and asphalt. The machine is fully hydraulic which allows a small overhang enabling the roller to run close to obstructions, eg. walls. It is equipped with a large watertank, dead-man's handle and push-stop. The machine can also be supplied with an electric starter.
