The first generation 6BT (5.9L) 12V engine was produced from 1988 - 1998 and had no casting issues with the block or head. From 1999 to 2002 some 100,000 of the 24v ISB engines stamped with the "53" on the crankcase have been known to be bad castings. Overtime these 53 Blocks are susceptible to cracking causing coolant leaks. The cracks start out very small but these 53 Blocks will ...
