Management: Management as a

Science, Arts and Profession
Organizing others' talents. When the materials of an art are others' personalities, talents, and efforts, as in military, government, and business management, personal development depends to some extent on those in overall charge. The education of its members becomes a social responsibility of the institution itself,...

Is management an art or a science?
– Emergence: Complexity ...
Management: Both Science and Art:
Management is both science as well as art. Like science it has systematic and well-organised body of knowledge and like art it requires personal skill, creativity and practice to apply such knowledge in the best possible way.

Science and art are not in contrast to each other; both exist together in every function of management.

(PDF) Management science: the art of modeling with ...

Research in the art and science of management will continue systematically to gather knowledge about the behavior of people in organizations and try to present that knowledge in new and testable theories, concepts, and hypotheses.

***Management Science - Study.com
The Art of Management So the reason for management is practical—it is centered on organizational practice. This is critical, as it's the practical that separates management as a***

profession from a scientific discipline. Science can tell us that most people are not motivated by money.

Management Science - Tuck School of Business

Management science: optimization and simulation (as well as statistics), advanced analytic methods that can reveal powerful insights into business problems.

Modeling craft: tools used by experts to generate insights from models, such as influence charts and prototyping.
