Used Manual Focus Lenses - UsedPhotoPro

What the Z6 does bring to the 800mm 5.6 is the ability to nail the focus, can't quite get it perfect with the D800 or D810. Even on Live view on the D800 the image moves around too much at high magnification to focus with. The peaking highlights seem to work well for focusing this lens. Feb 17, 2020 at 08:11 PM

Manual Focus

Manual camera lenses for Nikon come in a variety of different focal lengths and types like the standard 50mm or the wide-angle lenses. These lenses have a manual focus as opposed to an automatic focus and are compatible with a range of different mount types.

Using Manual Focus Lenses on Nikon DSLR Cameras

I've been so captivated by these lenses, in fact, that I initiated a couple of discussions on a great photography website, Fred Miranda. Here is a link to a conversation about Nikon's manual focus lenses, with contributions from folks who have collected such lenses over the decades and still enjoy shooting with them.

Manual Focus Nikon Lenses

All manual focus Nikkors are what we now call FX lenses – they were designed for use with 35mm film, and produce an image circle that will cover the “ full frame ” sensor of FX DSLRs. Of course, they will also work with Nikon DX cameras, subject to the normal 1.5X “ crop factor ” that is well-known to DX photographers. One advantage to DX users of this situation is that the smaller DX ...

Amazon.com: nikon manual focus lenses

I brought with me a handful of Nikon 's most popular 50mm manual focus lenses; the Nikkor 50mm 1.2, 1.4, 1.8, and Series E 1.8, to see what kind of shots each could make. The result? A few good photos and some solid information as to which of these lenses is the best in areas of sharpness, bokeh, price, and practical use.
