Best Manual Transmission Cars in 2019 | LendingTree
Automatic and manual transmissions both require a coupling device, a piece of equipment that is used to connect and disconnect the transmission and the engine as needed. In a manual transmission, that piece is called a clutch, and in an automatic transmission, it's a torque converter. In order to swap your automatic transmission for a manual (or vice versa if that's your objective), you'll need to disconnect the current coupling material and install the new one.
