Reasons Your Transmission is Slipping | AAMCO Colorado

If you are experiencing manual transmission problems and all your prior experience is with automatic transmissions, then you need to realize that it ' s far more likely you will experience a slipping clutch or other symptoms from the list above rather than a large-scale fluid leak.

How To Tell If Your Car Has A Slipping Clutch-Easy Test

You can have the clutch slipping, which is when the clutch isn't fully engaged, or if the torque the engine puts out overpowers the clutch. That means the two sections (input from engine and output to wheels) are transferring power, but not moving at the same speed. This friction heats up the clutch and can cause it to fail if it is excessive.
