Manual vs. Automatic Transmissions - State Farm®

There is always more control with manual transmission compared to automatic. Being able to use the gears to slow down is a massive bonus, especially when descending hills. 1st gear low will keep the 4x4 descending slowly with little need for braking.

When driving an under-powered 4x4 or a vehicle with a high-strung engine – like a Samurai for instance – a manual transmission will allow you to wind out the engine and make a direct connection that does not suck up any horsepower like an automatic transmission can.

Manual vs Automatic: Which Is Better Off-road?| Corsia ...

An automatic transmission utilizes torque converters to achieve a greater range of gearing, allowing it to bounce around to different gears more effortlessly, unlike manual transmissions that utilize a set gear ratio and require you to manually engage/disengage them at appropriate intervals.

Manual vs Automatic Off-road

Manual transmissions were standard equipment on early 4x4s, but automatic transmissions eventually burst on the scene and today the automatic dominates 4x4 sales.

Manual vs Automatic - Which Is Better Off Road

Manual is not always the answer. And although everyone should learn to drive stick, this is not the point today. Many people have the misconception that an off-road vehicle has to be manual. This isn't true. Actually, most new cars come with an automatic transmission. You may not even have a choice of manual if you only look locally.

When An Automatic Is Better Than A Manual Off-Road (And ...

One area where manual transmissions clearly take the cake is the cost of the vehicle. In fact, automatic transmissions run several thousand dollars more than their manual counterparts do. On the other hand, when you consider some of the possible long-term advantages of an automatic transmission, these benefits may outweigh the up-front costs.
