### Moving into Math Stations, K-2 (Video) | Stenhouse Publishers

I implemented my math centers last year at the end of whole group instruction. I would call a group of 2-6 students to my back table. The remaining students would work on math tubs. I used a SmartBoard set up for assigning my students to their math centers. This is the same setup for Daily 5 so the students are aware of it and follow.

### Kindergarten Math Centers - Little Minds at Work

Math Rotations or Math Workshop is a model of instruction where students are rotating between several "stations" throughout the math block. These stations are work stations that include working on a specific skill, working on classwork, meeting with the teacher for small group math instruction and having time to work with math with a hands-on approach.
