Answered by a verified Mazda Mechanic

**abs light tcs light on - Mazdaspeed Forums**

I have not. The dealer told me he would have to do it and the price tag was \$500-\$700 per axle The problem I have is that when the ABS is active the system engages and the brakes go into ABS mode. This is a problem on drive payment when I am trying to stop normally. There is a pulsing sound and the brakes pulse very hard

**MAZDA: Brake Assist and EBD | Active Safety Technology**

This indicator light stays on for a few seconds when the ignition is switched ON. If the TCS or DSC is operating, the indicator light flashes. If the light stays on, the TCS, DSC or the brake assist system may have a malfunction and they may not operate correctly. Take your vehicle to an expert repairer, we recommend an Authorised Mazda Repairer.

**ABS/TCS/DSC - owners-manual.mazda.com**

The ABS/TCS hydraulic unit and control module (ABS/TCS HU/CM) has an on-board diagnostic function. With this function, the ABS warning light and/or BRAKE system warning light will come on when there is a problem in the electrical system. Also, past and present malfunctions are recorded in the ABS/TCS HU/CM.
