Overview Euler's first law. Euler's first law states that the linear momentum of a body,  $p$  (also denoted  $G$ ) is equal to the product of the mass of the body  $m$  and the velocity of its center of mass  $v_{cm}$ :  $p = mv_{cm}$ . Internal forces between the particles that make up a body do not contribute to changing the total momentum of the body as there is an equal and opposite force resulting in no net effect.

Catalysis Conferences | Chemical Engineering Conferences ...

Information about Mechanical Engineering Degrees. Mechanical Engineering is a subject that focuses on the design, planning and manufacturing of almost everything you can think of, from individual parts and pieces to gadgets and large machines or systems.
