Amazon.com: Customer reviews: Mesopotamia: The Invention ...

A very good book on how the city was invented in ancient mesopotamia. Mesopotamia always being a fascinating subject, I have already read a couple of books on the subject but this one has the originality to present it in a different way: By going through a couple of the most important cities: Eridu, Babylone, etc.

Mesopotamia: The Invention Of The City PDF

The Greek name Mesopotamia means "land between the rivers." The Romans used this term for an area that they controlled only briefly (between 115 and 117 A.D.)—the land between the rivers Euphrates and Tigris, from the south Anatolian Mountains ranges to the Persian Gulf.

Mesopotamia: The Invention of the City by Gwendolyn Leick

The idea of "Mesopotamia" conceals a vast range, both temporally and geographically. The unifying theme Gwendolyn Leick explores in *The Invention of the City* is the development of urbanism. Sumer and Babylonia and Assyria may be the household names, but the key economic – and for many purposes political – unit was the city state, even in the age of empires.

Mesopotamia The Invention Of City

Each city is representative of a particular era the 4000 year old history of Mesopotamia, beginning with the Sumerians and ending with the Babylonians. In between, the reader is introduced to the Akkadians, the Assyrians and a string of other nations as they appear, conquer and are conquered in turn.

Amazon.com: Mesopotamia: The Invention of the City ...

Mesopotamia: The Invention of the City. Mesopotamia, situated roughly where Iraq is today, was one of the greatest ancient civilizations. It was here that the very first cities were created, and where the familiar sights of modern urban life - public buildings and gardens, places of worship, even streets and pavements - were originally invented.

Mesopotamia: The Invention of the City (Gwendolyn Leick)

Mesopotamia as a regional toponym relates to a conglomeration of areas from various modern-day nations, including Iraq, Kuwait, Syria, Turkey and even Iraq-Iran borders. Now historically, the relevance of this 'meta-region' relates to it being the focal point of earliest developments of the Neolithic Revolution, circa 10,000 BC.
