Chemistry for Kids: Chemical Mixtures

What is a Mixture? A mixture is a substance in which two or more substances are mixed but not chemically joined together, meaning that a chemical reaction has not taken place.. Mixtures can be easily separated and the substances in the mixture keep their original properties. Imagine mixing skittles and full size marshmallows, the individual components (skittles and marshmallows) could easily ...

5th Grade Science Mixtures and Solutions

mixtures and solutions after the activity is complete. These activities also link science and math content by using ratios while determining characteristics about mixtures. Following the introductory activities and lessons, we will begin incorporating mixtures and solutions into the classroom everyday across content areas.
