It has been decided by the Reserve Bank of India to introduce a new scheme of selection for recruitment of officers in Grade- ' B ' (DR), from recruitment year 2015. Under the new scheme of selection the examination will be computer based (Objective type with Multiple Choice Question pattern) and consists of two phases, viz., Phase-I and Phase-II,...

What are some good online courses and books available for ...
Problem of points. The problem of points, also called the problem of division of the stakes, is a classical problem in probability theory. One of the famous problems that motivated the beginnings of modern probability theory in the 17th century, it led Blaise Pascal to the first explicit reasoning about what today is known as an expected value.
