## **Moles Of Chalk Lab Answers**

Moles of Chalk Lab. Introduction:

Because atoms are so small, we would need really larger numbers to count them.

## Read Free Moles Of Chalk Lab Answers

Working with really big numbers can be frustrating. Because of this, in chemistry we have a unit called a “mole”. A mole of atoms means  $6.02 \times 10^{23}$  atoms. (Similar to how a dozen donuts means 12 donuts).
