Approaches to Multimodal Discourse Analysis

...

Multimodal Discourse outlines a new theory of communication for the age of interactive multimedia. Kress and Van Leeuwen show how two kinds of thought processes interact in the design and production of communicative messages: "design thinking" and "production thinking," the kind of thinking which occurs in direct interaction with the materials and media used.

Multimodal Discourse - Gunther Kress, Dean of Humanities ...

Modal affordance raises the question of what a mode is 'best' for what. This raises the concept of inter-semiotic relationships, and how modes are configured in particular contexts. These four concepts provide the starting point for multimodal analysis. What is the focus and scope of multimodal research?

"Multimodal Discourse outlines a new theory of communication for the age of interactive multimedia. Over the years, our everyday life has exploded with a diversity of communicative modes - language, image, music, sound, texture and gesture.

Multimodal discourse analysis - SlideShare

Multimodal discourse analysis names a range of approaches to studying social interaction and meaning as multimodal, that is, produced with and through multiple modes. However, multimodal discourse analysis is not about identifying and studying modes as isolated but rather about understanding the world as multimodal.
