articles, magazines, and more. As of this writing, Library Genesis indexes close to 3 million ebooks and 60 million articles. It would take several lifetimes to consume everything on offer here.

Multisim Live Online Circuit Simulator EWB Multisim versions 9, 8, 7 or 6 (2001) use Network License Server (NLS) to manage volume licenses and are not able to be managed by NI Volume License Manager (NI VLM) or FlexLM. NLS should be on the media you use to install EWB Multisim. The instructions for using NLS are in the EWB MultiSim User manual (see related links), page 1-10.

A Student Guide to Introduce Multisim, LTSpice, and ...

This lab manual covers both combinational and sequential digital electronics topics. Students begin by simulating logic gates in NI Multisim, and then build and deploy PLD circuits to an FPGA target. The lab manual also offers project-based applications that combine and reinforce skills students learn throughout the course.

NI recommends that you regularly back up the files created within the Multisim and Ultiboard components of Circuit Design Suite. Additionally, you should back up internal files that store user-created data, such as databases. For more information about which files to backup and where to find them, refer to the Multisim Help or Ultiboard Help.
