I have already said too much. The word mystery comes from the Greek muein, meaning to shut the mouth or close the eyes. As we begin a meditation on the four Last Things, (death, judgment, Heaven, and Hell), ponder with awe and reverential silence the great mystery of life and death. Tomorrow I will discuss some of the more practical aspects of ...

Cellular Respiration Case Study - The Mystery of Seven Deaths

This case is based loosely on the real-life 1982 Chicago Tylenol murders in which seven people died from cyanide poisoning, which interrupts the function of the electron transport chain (ETC). Students must examine the various components of cellular respiration and the role they play in ATP production in order to determine and understand the cause of death.
